# Alternative performance measure

The following table presents the reconciliation between "Net cash from operating activities" and "Operating free cash flow" for the fiscal years presented:

| (EUR millions)                          | 2022    | 2021    | 2020    |
|-----------------------------------------|---------|---------|---------|
| Net cash from operating activities      | 17,803  | 18,576  | 10,779  |
| Operating investments                   | (4,968) | (2,651) | (2,477) |
| Repayment of lease liabilities          | (2,751) | (2,453) | (2,302) |
| Operating free cash flow <sup>(a)</sup> | 10,084  | 13,472  | 6,000   |

<sup>(</sup>a) Under IFRS 16, fixed lease payments are treated partly as interest payments and partly as principal repayments. For its own operational management purposes, the Group treats all lease payments as components of its "Operating free cash flow", whether the lease payments made are fixed or variable. In addition, for its own operational management purposes, the Group treats operating investments as components of its "Operating free cash flow".

# Note 1. Accounting policies

## 1.1 General framework and environment

The consolidated financial statements for fiscal year 2022 were established in accordance with the international accounting standards and interpretations (IAS/IFRS) adopted by the European Union and applicable on December 31, 2022.

These standards and interpretations have been applied consistently to the fiscal years presented. The consolidated financial statements for fiscal year 2022 were approved by the Board of Directors on April 12, 2023.

# 1.2 Changes in the accounting framework applicable to the Group

The Group finished analyzing the impact of the IFRIC agenda decision issued in 2021 on accounting for the costs of installing software under a Software as a Service (SaaS) contract. As the impact of this decision on the amounts of software capitalized in the balance sheet as of December 31, 2021 was non-material, equity at the beginning of the period and for comparable periods was not restated as of December 31, 2022.

# 1.3 Impact of the Russia-Ukraine conflict on the consolidated financial statements

The Group's operations in Russia via LVMH have been largely suspended since March 2022, due to the conflict between Russia and Ukraine. As such, LVMH's stores in Russia were closed, with employees continuing to be paid. Assets held by LVMH in Russia and Ukraine primarily relate to fixtures and fittings at stores, and right-of-use assets under store leases. These assets comprise non-material amounts with respect to the Group's total assets.

The consequences of the conflict on LVMH's business activities in 2022 were not material, in terms of the direct impact in the affected countries and the impact of sanctions imposed by the international community on Russia and certain Russian nationals, as well as sanctions imposed by Russia in response. Inventories and right-of-use assets under store leases were reviewed as of December 31, 2022 to take into account the context arising from the crisis, and resulted in the recognition of partial impairment for non-significant amounts.

# 1.4 Taking into account climate change risks

The Group's current exposure to the consequences of climate change is limited. As such, at this stage, the impact of climate change on the financial statements is not material.

As part of the LIFE 360 program, which puts its environmental strategy into practice, the Group – via LVMH, which comprises all of the Group's operating activities – has launched a plan to transform its value chains.

The implementation of this program is reflected in the financial statements in the form of operating investments, research and development expenses and corporate philanthropy expenses.

In addition, profit from recurring operations in particular will be affected by changes in raw material prices; production, transport and distribution costs; and costs related to the end-of-life phase of its products.

The short-term effects have been incorporated into the strategic plans of the Group's Maisons, which form the basis for conducting impairment tests on intangible assets with indefinite useful lives (see Note 5). The long-term effects of these changes are not quantifiable at this stage.

# 1.5 First-time adoption of IFRS

The first accounts prepared by the Group in accordance with IFRS were the financial statements for the year ended December 31, 2005, with a transition date of January 1, 2004. IFRS 1 allowed for exceptions to the retrospective application of IFRS at the transition date. The procedures implemented by the Group with respect to these exceptions include the following:

- business combinations: the exemption from retrospective application was not applied. The Financière Agache group retrospectively restated acquisitions made since 1988, the date of the initial consolidation of LVMH, and all subsequent acquisitions were restated in accordance with IFRS 3. IAS 36 Impairment of Assets and IAS 38 Intangible Assets were applied retrospectively as of that date;
- foreign currency translation of the financial statements of subsidiaries outside the eurozone: translation reserves relating to the consolidation of subsidiaries that prepare their accounts in foreign currency were reset to zero as of January 1, 2004 and offset against "Other reserves".

#### Presentation of the financial statements 1.6

# Definitions of "Profit from recurring operations" and "Other operating income and expenses"

The Group's main business is the management and development of its brands and trade names. "Profit from recurring operations" is derived from these activities, whether they are recurring or non-recurring, core or incidental transactions.

"Other operating income and expenses" comprises income statement items, which - due to their nature, amount or frequency - may not be considered inherent to the Group's recurring operations or its profit from recurring operations. This caption reflects in particular the impact of changes in the scope of consolidation, the impairment of goodwill and the impairment and amortization of brands and trade names.

It also includes any significant amounts relating to the impact of certain unusual transactions, such as gains or losses arising on the disposal of fixed assets, restructuring costs, costs in respect of disputes, or any other non-recurring income or expense that may otherwise distort the comparability of profit from recurring operations from one period to the next.

#### Cash flow statement

Net cash from operating activities is determined on the basis of operating profit, adjusted for non-cash transactions. In addition:

- · dividends received are presented according to the nature of the underlying investments, thus in "Net cash from operating activities" for dividends from commercial joint ventures and associates, and in "Net cash from financial investments" for dividends from non-operating joint ventures and associates and from unconsolidated entities;
- tax paid is presented according to the nature of the transaction from which it arises, thus in "Net cash from operating activities" for the portion attributable to operating transactions; in "Net cash from financial investments" for the portion attributable to transactions in available for sale financial assets, notably tax paid on gains from their sale; and in "Net cash from transactions relating to equity" for the portion attributable to transactions in equity, notably distribution taxes arising on the payment of dividends.

#### 1.7 Use of estimates

For the purpose of preparing the consolidated financial statements, the measurement of certain balance sheet and income statement items requires the use of assumptions, estimates or other forms of judgment. This is particularly true of the valuation of intangible assets (see Note 5); the measurement of leases (see Note 7) and purchase commitments for minority interests' shares (see Notes 1.14 and 21); the determination of the amount of provisions for contingencies and losses, and uncertain tax positions (see Note 20) or for impairment of inventories (see Notes 1.19 and 11); and, if applicable, deferred tax assets (see Note 28). Such assumptions, estimates or other forms of judgment made on the basis of the information available or the situation prevailing at the date at which the financial statements are prepared may subsequently prove different from actual events.

#### 1.8 Methods of consolidation

The subsidiaries in which the Group holds a direct or indirect de facto or de jure controlling interest are fully consolidated.

Jointly controlled companies and companies where the Group has significant influence but no controlling interest are accounted for using the equity method. Although jointly controlled, those entities are fully integrated within the Group's operating activities if their businesses are related to those of the Group. Financière Agache discloses their net profit - as well as that of entities using the equity method (see Note 8) – on a separate line, which forms part of profit from recurring operations.

Net profit for non-operating joint ventures and associates is disclosed on a specific line within "Net financial income/ (expense)".

When an investment in a joint venture or associate accounted for using the equity method involves a payment tied to meeting specific performance targets, known as an earn-out payment, the estimated amount of this payment is included in the initial purchase price recorded in the balance sheet, with an offsetting entry under financial liabilities. Any difference between the initial estimate and the actual payment made is recorded as part of the value of investments in joint ventures and associates, without any impact on the income statement.

The assets, liabilities, income and expenses of the Wines and Spirits distribution subsidiaries held jointly with the Diageo group are consolidated only in proportion to the Group's share of operations (see Note 1.28).

The consolidation on an individual or collective basis of companies that are not consolidated (see "Companies not included in the scope of consolidation") would not have a significant impact on the Group's main aggregates.

## 1.9 Foreign currency translation of the financial statements of entities outside the eurozone

The consolidated financial statements are presented in euros; the financial statements of entities presented in a different functional currency are translated into euros:

- at the period-end exchange rates for balance sheet items;
- at the average rates for the period for income statement items.

Translation adjustments arising from the application of these rates are recorded in equity under "Cumulative translation adjustment".

# 1.10 Foreign currency transactions and hedging of exchange rate risks

Transactions of consolidated companies denominated in a currency other than their functional currencies are translated to their functional currencies at the exchange rates prevailing at the transaction dates.

Accounts receivable, accounts payable and debts denominated in currencies other than the entities' functional currencies are translated at the applicable exchange rates at the fiscal year-end. Gains and losses resulting from this translation are recognized:

- within "Cost of sales" for commercial transactions;
- within "Net financial income/(expense)" for financial transactions.

Foreign exchange gains and losses arising from the translation or elimination of intra-Group transactions or receivables and payables denominated in currencies other than the entity's functional currency are recorded in the income statement unless they relate to long-term intra-Group financing transactions, which can be considered equity-related transactions. In the latter case, translation adjustments are recorded in equity under "Cumulative translation adjustment".

Derivatives used to hedge commercial, financial or investment transactions are recognized in the balance sheet at their market value (see Note 1.11) at the balance sheet date. Changes in the value of the effective portions of these derivatives are recognized as follows:

- for hedges that are commercial in nature:
  - within "Cost of sales" for hedges of receivables and payables recognized in the balance sheet at the end of the period,
  - within equity under "Revaluation reserves" for hedges of future cash flows; this amount is transferred to cost of sales upon recognition of the hedged trade receivables and payables;

- for hedges relating to the acquisition of fixed assets: within
  equity under "Revaluation reserves" for hedges of future
  cash flows; this amount is transferred to the asset side of
  the balance sheet, as part of the initial cost of the hedged
  item when accounting for the latter, and then to the income
  statement in the event of the disposal or impairment of the
  hedged item;
- for hedges that are tied to the Group's investment portfolio (hedging the net worth of subsidiaries whose functional currency is not the euro): within equity under "Cumulative translation adjustment"; this amount is transferred to the income statement upon the sale or liquidation (whether partial or total) of the subsidiary whose net worth is hedged;
- for hedges that are financial in nature: within "Net financial income/(expense)", under "Other financial income and expenses".

Changes in the value of these derivatives related to forward points associated with forward contracts, as well as in the time value component of options, are recognized as follows:

- for hedges that are commercial in nature: within equity under "Revaluation reserves". The cost of the forward contracts (forward points) and of the options (premiums) is transferred to "Other financial income and expenses" upon completion of the hedged transaction;
- for hedges that are tied to the Group's investment portfolio or financial in nature: expenses and income arising from discounts or premiums are recognized in "Borrowing costs" on a pro rata basis over the term of the hedging instruments. The difference between the amounts recognized in "Net financial income/(expense)" and the change in the value of forward points is recognized in equity under "Revaluation reserves".

Market value changes of derivatives not designated as hedges are recorded within "Net financial income/(expense)".

See also Note 1.23 for the definition of the concepts of effective and ineffective portions.

## 1.11 Fair value measurement

Fair value (or market value) is the price that would be obtained from the sale of an asset or paid to transfer a liability in an orderly transaction between market participants.

The assets and liabilities measured at fair value in the balance sheet are as follows:

|                                                                                                              | Approaches to determining fair value                                                                                                                                                                                                           | Amounts recorded<br>at balance<br>sheet date |

No other assets or liabilities have been remeasured at market value at the balance sheet date.

# 1.12 Brands and other intangible assets

Only acquired brands and trade names that are well known and individually identifiable are recorded as assets based on their market values at their dates of acquisition.

Brands and trade names are chiefly valued using the forecast discounted cash flow method, or based on comparable transactions (i.e. using the revenue and net profit coefficients employed for recent transactions involving similar brands) or stock market multiples observed for related businesses. Other complementary methods may also be employed: the relief from royalty method, involving equating a brand's value with the present value of the royalties required to be paid for its use; the margin differential method, applicable when a measurable difference can be identified in the amount of revenue generated by a branded product in comparison with a similar unbranded product; and finally the equivalent brand reconstitution method involving, in particular, estimation of the amount of advertising and promotion expenses required to generate a similar brand.

Costs incurred in creating a new brand or developing an existing brand are expensed.

Brands, trade names and other intangible assets with finite useful lives are amortized over their estimated useful lives. The classification of a brand or trade name as an asset of finite or indefinite useful life is generally based on the following criteria:

- the brand or trade name's overall positioning in its market expressed in terms of volume of activity, international presence and reputation;
- its expected long-term profitability;
- its degree of exposure to changes in the economic environment;
- any major event within its business segment liable to compromise its future development;
- its age.

Amortizable lives of brands and trade names with finite useful lives range from 5 to 20 years, depending on their anticipated period of use.

Impairment tests are carried out for brands, trade names and other intangible assets using the methodology described in

Research expenditure is not capitalized. New product development expenditure is not capitalized unless the final decision has been made to launch the product.

Intangible assets other than brands and trade names are amortized over the following periods:

- rights attached to sponsorship agreements and media partnerships are amortized over the life of the agreements, depending on how the rights are used;
- development expenditure is amortized over 3 years at most;
- software and websites are amortized over 1 to 5 years.

# 1.13 Changes in ownership interests in consolidated entities

When the Group takes *de jure* or *de facto* control of a business, its assets, liabilities and contingent liabilities are estimated at their market value as of the date when control is obtained; the difference between the cost of taking control and the Group's share of the market value of those assets, liabilities and contingent liabilities is recognized as goodwill.

The cost of taking control is the price paid by the Group in the context of an acquisition, or an estimate of this price if the transaction is carried out without any payment of cash, excluding acquisition costs, which are disclosed under "Other operating income and expenses".

The difference between the carrying amount of minority interests purchased after control is obtained and the price paid for their acquisition is deducted from equity.

Goodwill is accounted for in the functional currency of the acquired entity.

Goodwill is not amortized but is subject to annual impairment testing using the methodology described in Note 1.17. Any impairment expense recognized is included within "Other operating income and expenses".

# 1.14 Purchase commitments for minority interests' shares

The Group has granted put options to minority shareholders of certain fully consolidated subsidiaries.

Pending specific guidance from IFRSs regarding this issue, the Group recognizes these commitments as follows:

• the value of the commitment at the balance sheet date appears in "Purchase commitments for minority interests' shares", as a liability on its balance sheet;

- the corresponding minority interests are canceled;
- for commitments granted prior to January 1, 2010, the
  difference between the amount of the commitments and
  canceled minority interests is maintained as an asset on the
  balance sheet under goodwill, as are subsequent changes in
  this difference. For commitments granted as from January 1,
  2010, the difference between the amount of the commitments
  and minority interests is deducted from equity, under "Other
  reserves".

This recognition method has no effect on the presentation of minority interests within the income statement.

# 1.15 Property, plant and equipment

With the exception of vineyard land, the gross value of property, plant and equipment is stated at acquisition cost. Any borrowing costs incurred prior to the placed-in-service date or during the construction period of assets are capitalized.

Vineyard land is recognized at the market value at the balance sheet date. This valuation is based on official published data for recent transactions in the same region. Any difference compared to historical cost is recognized within equity in "Revaluation reserves". If the market value falls below the acquisition cost, the resulting impairment is charged to the income statement.

Buildings mostly occupied by third parties are reported as investment property, at acquisition cost. Investment property is thus not remeasured at market value.

The depreciable amount of property, plant and equipment comprises the acquisition cost of their components less residual value, which corresponds to the estimated disposal price of the asset at the end of its useful life.

Property, plant and equipment are depreciated on a straight-line basis over their estimated useful lives. For leased assets, the depreciation period cannot be longer than that used for the calculation of the lease liability.

The estimated useful lives are as follows:

- buildings including investment property: 20 to 100 years;
- machinery and equipment: 3 to 25 years;
- leasehold improvements: 3 to 10 years;
- producing vineyards: 18 to 25 years.

Expenses for maintenance and repairs are charged to the income statement as incurred.

## 1.16 Leases

The Group has applied IFRS 16 Leases since January 1, 2019. The initial application was carried out using the "modified retrospective" approach to transition. See Note 1.2 to the 2019 consolidated financial statements for details of this initial application procedure for IFRS 16 and the impact of its initial application on the 2019 financial statements.

When entering into a lease, a liability is recognized in the balance sheet, measured at the discounted present value of future payments of the fixed portion of lease payments and offset against a right-of-use asset depreciated over the lease term. The amount of the liability depends to a large degree on the assumptions used for the lease term and, to a lesser extent, the discount rate. The Group's extensive geographic coverage means it encounters a wide range of different legal conditions when entering into contracts.

The lease term generally used to calculate the liability is the term of the initially negotiated lease, not taking into account any early termination options, except in special circumstances. When leases contain extension options, the term used for the calculation of the liability may include these periods, mainly when the anticipated period of use of the fixed assets, whether under a new or existing lease, is greater than the initial contractual lease term.

The lease term to be used in accounting for lease liabilities when the underlying assets are capitalized even though the obligation to make lease payments covers a period of less than 12 months is consistent with the anticipated period of use of the invested assets. Most often, this involves leases for retail locations that are automatically renewable on an annual basis.

The standard requires that the discount rate be determined for each lease using the incremental borrowing rate of the subsidiary entering into the lease. In practice, given the structure of the Group's financing – virtually all of which is held or guaranteed by LVMH SE – this incremental borrowing rate is generally the total of the risk-free rate for the currency of the lease, with reference to its term, and the Group's credit risk for this same currency and over the same term.

Leasehold rights and property, plant and equipment related to restoration obligations for leased facilities are presented within "Right-of-use assets" and subject to depreciation under the same principles as those described above.

The Group has implemented a dedicated IT solution to gather lease data and run the calculations required by the standard.

Since the application of IFRS 16 had a significant impact on the cash flow statement given the importance of fixed lease payments to the Group's activities, specific indicators are used for internal performance monitoring requirements and

financial communication purposes in order to present consistent performance indicators, independently of the fixed or variable nature of lease payments. One such alternative performance measure is "Operating free cash flow", which is calculated by deducting capitalized fixed lease payments in their entirety from cash flow. The reconciliation between "Net cash from operating activities" and "Operating free cash flow" is presented in the cash flow statement.

# 1.17 Impairment testing of fixed assets

Property, plant and equipment, intangible assets, and all leased fixed assets are subject to impairment testing whenever there is any indication that an asset may be impaired (particularly following major changes in the asset's operating conditions), and in any event at least annually in the case of intangible assets with indefinite useful lives (mainly brands, trade names and goodwill). When the carrying amount of assets with indefinite useful lives is greater than the higher of their value in use or market value, the resulting impairment loss is recognized within "Other operating income and expenses", allocated on a priority basis to any existing goodwill.

Value in use is based on the present value of the cash flows expected to be generated by these assets. Market value is estimated by comparison with recent similar transactions or on the basis of valuations performed by independent experts for the purposes of a disposal transaction.

Cash flows are forecast at Group level for each business segment, defined as one or several brands or trade names under the responsibility of a dedicated management team; in general, a business segment as defined above corresponds to a Maison within the Group. Smaller-scale cash-generating units, such as a group of stores, may be distinguished within a particular business segment.

The forecast data required for the discounted cash flow method is based on annual budgets and multi-year business plans prepared by the management of the business segments concerned. Detailed forecasts cover a five-year period, which may be extended for brands undergoing strategic repositioning or whose production cycle exceeds five years. An estimated terminal value is added to the value resulting from discounted forecast cash flows, which corresponds to the capitalization in perpetuity of cash flows most often arising from the last year of the plan. Discount rates are set for each business group with reference to companies engaged in comparable businesses. Forecast cash flows are discounted on the basis of the rate of return to be expected by an investor in the applicable business and an assessment of the risk premium associated with that business. When several forecast scenarios are developed, the probability of occurrence of each scenario is assessed.

# 1.18 Available for sale financial assets

Available for sale financial assets are classified as current or non-current based on their type.

Non-current available for sale financial assets comprise strategic and non-strategic investments whose estimated period and form of ownership justify such classification.

Current available for sale financial assets (presented in "Other current assets"; see Note 13) include temporary investments in shares, shares of SICAVs, FCPs and other mutual funds, excluding investments made as part of day-to-day cash management, which are accounted for as "Cash and cash equivalents" (see Note 1.21).

Available for sale financial assets are measured at their listed value at the fiscal year-end date in the case of quoted investments, and in the case of unquoted investments at their estimated net realizable value, assessed either according to formulas based on market data or based on private quotations at the fiscal year-end

Positive or negative changes in value are recognized by the LVMH group under "Net financial income/(expense)" (within "Other financial income and expenses") for all shares held in the portfolio during the reported periods.

At its level, Financière Agache integrates data from the LVMH group without restatement. As it is authorized to do under IFRS 9, Financière Agache has opted to present its own available for sale financial assets of consolidated subsidiaries outside the LVMH scope within equity (under "Revaluation reserves" for available for sale financial assets). Nevertheless, Financière Agache reserves the right to choose, for each accounting item, the method for recognizing their change in market value: either within "Net financial income/(expense)" or directly in equity for its future available for sale financial assets.

# 1.19 Inventories and work in progress

Inventories other than wine produced by the Group are recorded at the lower of cost (excluding interest expense) and net realizable value; cost comprises manufacturing cost (finished goods) or purchase price, plus incidental costs (raw materials, merchandise).

Wine produced by the Group, including champagne, is measured on the basis of the applicable harvest market value, which is determined by reference to the average purchase price of equivalent grapes, as if the grapes harvested had been purchased from third parties. Until the date of the harvest, the value of grapes is calculated on a pro rata basis, in line with the estimated yield and market value.

Inventories are valued using either the weighted average cost or the FIFO method, depending on the type of business.

Due to the length of the aging process required for champagne and spirits (cognac, whisky), the holding period for these inventories generally exceeds one year. However, in accordance with industry practices, these inventories are classified as current assets.

Provisions for impairment of inventories are chiefly recognized for businesses other than Wines and Spirits. They are generally required because of product obsolescence (end of season or collection, expiration date approaching, etc.) or lack of sales prospects.

# 1.20 Trade accounts receivable, loans and other receivables

Trade accounts receivable, loans and other receivables are recorded at amortized cost, which corresponds to their face value. Impairment is recognized for the portion of loans and receivables not covered by credit insurance when such receivables are recorded, in the amount of the losses expected upon maturity. This reflects the probability of counterparty default and the expected loss rate, measured using historical statistical data, information provided by credit bureaus, or ratings by credit rating agencies, depending on the specific case.

The amount of long-term loans and receivables (i.e. those falling due in more than one year) is subject to discounting, the effects of which are recognized under "Net financial income/(expense)", using the effective interest method.

# 1.21 Cash and cash equivalents

Cash and cash equivalents comprise cash and highly liquid money-market investments subject to an insignificant risk of changes in value over time.

Money-market investments are measured at their market value, based on price quotations at the close of trading and on the exchange rate prevailing at the fiscal year-end date, with any changes in value recognized as part of "Net financial income/ (expense)".

## 1.22 Provisions

A provision is recognized whenever an obligation exists towards a third party resulting in a probable disbursement for the Group, the amount of which may be reliably estimated. See also Notes 1.26 and 20.

If the date at which this obligation is to be discharged is in more than one year, the provision amount is discounted, the effects of which are recognized in "Net financial income/(expense)" using the effective interest method.

# 1.23 Borrowings

Borrowings are measured at amortized cost, i.e. nominal value net of issue premiums and issuance costs, which are charged over time to "Net financial income/(expense)" using the effective interest method.

In the case of hedging against fluctuations in the value of borrowings resulting from changes in interest rates, both the hedged amount of borrowings and the related hedging instruments are measured at their market value at the balance sheet date, with any changes in those values recognized within "Net financial income/(expense)", under "Fair value adjustment of borrowings and interest rate hedges". See Note 1.11 regarding the measurement of hedged borrowings at market value. Interest income and expenses related to hedging instruments are recognized within "Net financial income/(expense)", under "Borrowing costs".

In the case of hedging against fluctuations in future interest payments, the related borrowings remain measured at their amortized cost while any changes in value of the effective hedge portions are taken to equity as part of "Revaluation reserves".

Changes in value of non-hedging derivatives, and of the ineffective portions of hedges, are recognized within "Net financial income/(expense)".

Net financial debt comprises short- and long-term borrowings, the market value at the balance sheet date of interest rate derivatives. less the amount at the balance sheet date of non-current available for sale financial assets used to hedge financial debt, current available for sale financial assets, cash and cash equivalents, in addition to the market value at that date of foreign exchange derivatives related to any of the aforementioned items.

# 1.24 Derivatives

The Group enters into derivative transactions as part of its strategy for hedging foreign exchange, interest rate and precious metal price risks.

To hedge against commercial, financial and investment foreign exchange risk, the Group uses options, forward contracts, foreign exchange swaps and cross-currency swaps. The time value of options, the forward point component of forward contracts and foreign exchange swaps, as well as the foreign currency basis spread component of cross-currency swaps are systematically excluded from the hedge relation. Consequently, only the intrinsic value of the instruments is considered a hedging instrument. Regarding hedged items (future foreign currency cash flows, commercial or financial liabilities and accounts receivable in foreign currencies, subsidiaries' equity denominated in a functional currency other than the euro), only their change in value in respect of foreign exchange risk is considered a hedged item. As such, aligning the hedging instruments' main features (nominal values, currencies, maturities) with those of the hedged items makes it possible to perfectly offset changes in value.

Derivatives are recognized in the balance sheet at their market value at the balance sheet date. Changes in their value are accounted for as described in Note 1.10 in the case of foreign exchange hedges and as described in Note 1.23 in the case of interest rate hedges.

Market value is based on market data and commonly used valuation models.

Derivatives with maturities in excess of 12 months are disclosed as non-current assets and liabilities.

# 1.25 Financière Agache, Christian Dior and LVMH treasury shares

### Financière Agache treasury shares

Financière Agache shares held by the Group are measured at their acquisition cost and recognized as a deduction from consolidated equity, irrespective of the purpose for which they are held.

In the event of disposal, the cost of the shares disposed of is determined using the FIFO method. Gains and losses on disposal are taken directly to equity.

## Christian Dior and LVMH treasury shares

Purchases and sales by Christian Dior and LVMH of their own shares, as well as LVMH SE capital increases reserved for recipients of share subscription options, resulting in changes in the ownership interests held by the Financière Agache group in Christian Dior and in LVMH, are accounted for in the consolidated financial statements of the Financière Agache group as changes in ownership interests in consolidated entities.

As from January 1, 2010, in accordance with the revised version of IFRS 3, changes in the Financière Agache group's ownership interest in Christian Dior and LVMH have been taken to equity.

As this standard is applied prospectively, goodwill recognized as of December 31, 2009 has been maintained as an asset on the balance sheet.

# 1.26 Pensions, contribution to medical costs and other employee benefit commitments

When plans related to retirement bonuses, pensions, contributions to medical costs, or other employee benefit commitments entail the payment by the Group of contributions to third-party organizations that assume sole responsibility for subsequently paying such retirement bonuses, pensions or contributions to medical costs, these contributions are expensed in the fiscal year in which they fall due, with no liability recorded on the balance sheet.

Notes to the consolidated financial statements

When the payment of retirement bonuses, pensions, contributions to medical costs, or other employee benefit commitments is to be borne by the Group, a provision is recorded in the balance sheet in the amount of the corresponding actuarial commitment. Changes in this provision are recognized as follows:

- the portion related to the cost of services rendered by employees and net interest for the fiscal year is recognized in profit from recurring operations for the fiscal year;
- the portion related to changes in actuarial assumptions and to differences between projected and actual data (experience adjustments) is recognized in gains and losses taken to equity.

If this commitment is partially or fully funded by payments made by the Group to external financial organizations, these dedicated funds are deducted from the actuarial commitment recorded in the balance sheet.

The actuarial commitment is calculated based on assessments that are specifically designed for the country and the Group company concerned. In particular, these assessments include assumptions regarding discount rates, salary increases, inflation, life expectancy and staff turnover.

## 1.27 Current and deferred tax

The tax expense comprises current tax payable by consolidated companies, deferred tax resulting from temporary differences, and the change in uncertain tax positions.

Deferred tax is recognized in respect of temporary differences arising between the value of assets and liabilities for purposes of consolidation and the value resulting from the application of tax regulations.

Deferred tax is measured on the basis of the income tax rates enacted at the balance sheet date; the effect of changes in rates is recognized during the periods in which changes are enacted.

Future tax savings from tax losses carried forward are recorded as deferred tax assets on the balance sheet and impaired if they are deemed not recoverable; only amounts for which future use is deemed probable are recognized.

Deferred tax assets and liabilities are not discounted.

Taxes payable in respect of the distribution of retained earnings of subsidiaries give rise to provisions if distribution is deemed probable.

# 1.28 Revenue recognition

#### Definition of revenue

Revenue mainly comprises retail sales within the Group's store network (including e-commerce websites) and wholesale sales through agents and distributors. Sales made in stores owned by third parties are treated as retail transactions if the risks and rewards of ownership of the inventories are retained by the Group.

Direct sales to customers are mostly made through retail stores in Fashion and Leather Goods and Selective Retailing, as well as certain Watches and Jewelry and Perfumes and Cosmetics brands. These sales are recognized at the time of purchase by retail customers.

Wholesale sales mainly concern the Wines and Spirits businesses, as well as certain Perfumes and Cosmetics and Watches and Jewelry brands. The Group recognizes revenue when title transfers to third-party customers.

Revenue includes shipment and transportation costs re-billed to customers only when these costs are included in products' selling prices as a lump sum.

Sales of services, mainly involved in the Group's "Other activities" segment, are recognized as the services are provided.

Revenue is presented net of all forms of discount. In particular, payments made in order to have products referenced or, in accordance with agreements, to participate in advertising campaigns with the distributors, are deducted from related

## Provisions for product returns

Perfumes and Cosmetics companies and, to a lesser extent, Fashion and Leather Goods and Watches and Jewelry companies may accept the return of unsold or outdated products from their customers and distributors. Retail sales, and in particular online sales, also result in product returns from customers.

Where these practices are applied, revenue is reduced by the estimated amount of such returns, and a provision is recognized within "Other current liabilities" (see Note 22.2), along with a corresponding entry made to inventories. The estimated rate of returns is based on historical statistical data.

## Businesses undertaken in partnership with Diageo

A significant proportion of revenue for the Group's Wines and Spirits businesses is generated within the framework of distribution agreements with Diageo, generally taking the form of shared entities that sell and deliver both groups' products to customers. The income statement and balance sheet of these entities is apportioned between the Group and Diageo based on distribution agreements. According to those agreements, the assets, liabilities, income and expenses of such entities are consolidated only in proportion to the Group's share of operations.

# 1.29 Advertising and promotion expenses

Advertising and promotion expenses include the costs of producing advertising media, purchasing media space, manufacturing samples, publishing catalogs and, in general, the cost of all activities designed to promote the Group's brands and products.

Advertising and promotion expenses are recorded within marketing and selling expenses upon receipt or production of goods or upon completion of services rendered.

# 1.30 Bonus share and similar plans

For bonus share plans, the expected gain is calculated on the basis of the closing share price on the day before the Board of Directors' meeting at which the plan is instituted, less the amount of dividends expected to accrue during the vesting period. For any bonus share plans subject to performance conditions, the expense for the fiscal year includes provisional allocations for which the conditions are deemed likely to be met.

For all plans, the amortization expense is apportioned on a straight-line basis in the income statement over the vesting period, with a corresponding impact on reserves in the balance sheet.

For any cash-settled compensation plans index-linked to the change in the LVMH share price, the gain over the vesting period is estimated at each balance sheet date based on the LVMH share price at that date and is charged to the income statement on a pro rata basis over the vesting period, with a corresponding balance sheet impact on provisions. Between that date and the settlement date, the change in the expected gain resulting from the change in the LVMH share price is recorded in the income statement.

# 1.31 Earnings per share

Earnings per share are calculated based on the weighted average number of shares outstanding during the fiscal year, excluding treasury shares.

Where applicable, diluted earnings per share are calculated based on the weighted average number of shares before dilution. Dilutive instruments issued by subsidiaries are also taken into consideration for the purposes of determining the Group's share of net profit after dilution.

#### 2.1 Fiscal year 2022

## Capital increase of Financière Agache, with LVMH shares contributed in consideration

Financière Agache SA informed the AMF that on March 16, 2022 it had individually exceeded the thresholds of 5% of the share capital and voting rights of LVMH SE, and that it individually held 5.53% of that company's share capital and 5.44% of its voting rights. These thresholds were crossed due to the contribution by Agache SE of 9,255,405 LVMH shares to Financière Agache SA. This transaction resulted in an increase in the share capital of Financière Agache SA, amounting to 5,761 million euros, via the issue of 129,787 Financière Agache shares to Agache SE.

## Merger by absorption of Europatweb SA

On November 25, 2022, Financière Agache SA absorbed its sister company Europatweb SA. As of that date, the assets and liabilities of Europatweb and its subsidiaries were added to the scope of consolidation of Financière Agache. This business combination, with both companies controlled by Agache SCA, was recognized on the basis of carrying amounts. This transaction increased equity by 475 million euros.

## Joseph Phelps

In August 2022, the Group acquired the entire share capital of Joseph Phelps, a California estate offering a collection of Napa Valley and Sonoma Coast red wines. The price paid, which totaled 587 million US dollars (587 million euros), was mainly allocated to the Joseph Phelps brand, in the amount of 169 million euros, and to producing vineyards for 119 million euros. Final goodwill came to 186 million euros.

## Sephora

In October 2022, Sephora disposed of all its shares in its Russian subsidiary.

### Off-White

In September 2022, LVMH acquired an additional 40% stake in Off-White LLC, bringing its ownership interest to 100%.

## **Pedemonte**

In November 2022, LVMH announced the acquisition of Pedemonte Group, a jewelry manufacturer with locations in Italy and France, from the Equinox III SLP SIF investment fund. This equity investment will be consolidated in 2023.

Equity investments newly consolidated in 2022 did not have a significant impact on revenue or profit from recurring operations for the fiscal year.

#### 2.2 Fiscal year 2021

# **Tiffany**

On January 7, 2021, LVMH acquired all of the shares in Tiffany & Co. ("Tiffany"), in accordance with the agreement signed in November 2019, amended in October 2020 and approved at Tiffany's Shareholders' Meeting on December 30, 2020. The acquisition was completed at the price of 131.50 US dollars per share, for a total of 16.1 billion US dollars, paid in cash, equivalent to 13.1 billion euros as of the acquisition date. Tiffany has been consolidated since January 2021.

The acquisition of Tiffany has reinforced LVMH's position in high iewelry and further expanded its presence in the United States. The integration of this iconic American brand profoundly transforms LVMH's Watches and Jewelry business group.

The following table details the final allocation of the purchase price paid by LVMH on January 7, 2021, the date of acquisition of the controlling interest:

| (EUR millions)                                       | Final purchase price allocation |
|------------------------------------------------------|---------------------------------|
| Brand and other intangible assets                    | 6,124                           |
| Property, plant and equipment                        | 1,002                           |
| Right-of-use assets                                  | 860                             |
| Inventories and work in progress                     | 1,788                           |
| Deferred tax                                         | (1,199)                         |
| Lease liabilities                                    | (927)                           |
| Net financial debt                                   | (345)                           |
| Other current and non-current assets and liabilities | (479)                           |
| Minority interests                                   | -                               |
| Net assets acquired                                  | 6,824                           |
| Goodwill                                             | 6,750                           |
| Carrying amount of shares held                       |                                 |
| as of January 7, 2021                                | 13,574                          |

The amounts presented in the table above are taken from Tiffany's financial statements at the date of acquisition of the controlling interest, prepared and presented in accordance with the accounting policies applied by LVMH; they have undergone specific audit procedures.

The main revaluation of the assets and liabilities acquired was related to the brand. This was measured primarily using the relief-from-royalty method and secondarily using the excess

earnings method. The value determined, i.e. 7,300 million US dollars (5,949 million euros), is the average of the value ranges obtained. Final goodwill, amounting to 8,283 million US dollars (6,750 million euros), reflects Tiffany's specific expertise in the development and production of high-quality jewelry products, as well as its access to a high-quality directly operated distribution network; this goodwill also reflects the synergies that will result from the inclusion of Tiffany in the LVMH group.

The carrying amount of shares held as of the date of acquisition of the controlling interest includes the impact of foreign exchange hedges implemented in anticipation of the acquisition for 477 million euros.

During fiscal year 2021, the Tiffany acquisition generated an outflow of 12.5 billion euros, net of cash acquired in the amount of 0.6 billion euros. The transaction was funded through a number of bond issues in 2020, for a total amount of 10.7 billion euros, together with euro- and US dollar-denominated commercial paper for the remainder (see Note 19 to the 2020 consolidated financial statements).

The acquisition costs for Tiffany were recognized in "Other operating income and expenses" and totaled 4 million euros, 35 million euros and 39 million euros for fiscal years 2021, 2020 and 2019, respectively.

For fiscal year 2021, Tiffany generated consolidated revenue of 4,321 million euros and profit from recurring operations of 778 million euros.

#### Le Peigné

Le Peigné, a Belgian company in which Financière Agache directly owned a 40% equity stake, accounted for using the equity method, underwent a merger by absorption by Financière Agache SA on November 30, 2021. Only the other shareholder in Le Peigné, an affiliated company, received consideration, through the issue of 169,590 new Financière Agache shares, with its contribution valued at 5.2 billion euros in the consolidated financial statements. The main consequence of this merger was that it increased Financière Agache's ownership interests in Christian Dior SE (by 0.76% of the share capital) and in LVMH SE (by 1.88% of the share capital). These increases were treated as acquisitions of minority interests in these companies, resulting in a decrease in consolidated reserves of 6.8 billion euros for the Group share and of 1.0 billion euros for minority interests.

## Lagardère Capital

On June 30, 2021, Lagardère SCA was transformed into a Société Anonyme (SA) with a board of directors. As compensation to the two general partners (associés commandités) for the loss of their rights, the General Meeting of Limited Partners (Assemblée générale des commanditaires) voted to grant them 10 million new Lagardère SA shares, half of which for Arjil Commanditée-Arco, a more than 99%-owned subsidiary of Lagardère Capital, and the other half for Arnaud Lagardère, who contributed 90% of this grant amount to Lagardère Capital, in accordance with the partners' agreement between the shareholders of Lagardère Capital.

On September 1, 2021, Financière Agache notified Lagardère Capital that it was exercising the liquidity pledge provided for in this partners' agreement. All the Lagardère Capital shares held by Financière Agache were bought back by way of an unequal capital reduction (réduction de capital inégalitaire) in consideration for the transfer on October 13, 2021 of 3,910,139 Lagardère SA shares held by Lagardère Capital. In this context, Arnaud Lagardère and Financière Agache announced the end of their concerted action with regard to Lagardère SA.

Consequently, the direct stake in Lagardère SA rose to 9.97% of that company's share capital (see Note 9).

#### Château d'Esclans

In May 2021, LVMH acquired an additional 45% stake in Château d'Esclans, bringing its ownership interest to 100%.

## Armand de Brignac

In May 2021, LVMH acquired a 50% stake in Armand de Brignac, a major purveyor of prestige champagne. The price paid was mainly allocated to the Armand de Brignac brand for an amount of 390 million US dollars (318 million euros), with the final goodwill totaling 112 million euros.

#### 2.3 Fiscal year 2020

## Lagardère Capital

On September 24, 2020, Financière Agache acquired a direct stake of around 27% in Lagardère Capital, accounted for using the equity method (see Note 8). In connection with this transaction, Financière Agache declared that it was acting in concert with Lagardère Capital and other related persons with regard to Lagardère SCA.

#### Rimowa

In June 2021, the minority shareholder holding 20% of the share capital of Rimowa exercised its put option for all of its shares. Payment took place in July 2021. Following this transaction, LVMH now holds all the shares in Rimowa.

#### Off-White

On September 1, 2021, LVMH acquired an additional 25% stake in Off-White LLC, bringing its ownership interest to 60%. Off-White LLC owns the Off-White fashion brand founded by Virgil Abloh. Off-White LLC has been fully consolidated since that date; the price paid was mainly allocated to the Off-White brand for an amount of 291 million US dollars (236 million euros). See also Note 26.

### Feelunique

In September 2021, Sephora fully acquired Feelunique, a leading online beauty retailer in the United Kingdom. This acquisition represents the first step in establishing Sephora's presence in the United Kingdom. This equity investment was consolidated in 2022.

## Officine Universelle Buly

In October 2021, the Group fully acquired Officine Universelle Buly, a Parisian brand specializing in perfumes and cosmetics that was founded in the 19th century and relaunched in 2014. This equity investment was consolidated in 2022. See also Note 26.

#### **Thélios**

In December 2021, LVMH acquired an additional 49% stake in Thélios, a company specializing in eyewear, bringing its ownership interest to 100%.

In addition, Financière Agache acquired a direct stake in Lagardère SCA and holds 7.75% of that company's share capital (see Note 9).

There were no other significant changes in ownership interests in consolidated entities during the fiscal year.

#### 2.4 Impact on net cash and cash equivalents of changes in ownership interests in consolidated entities

In 2022, the impact on net cash and cash equivalents of changes in ownership interests in consolidated entities primarily arose from the acquisition of Joseph Phelps. It also included the cash impact of LVMH share repurchase programs (the main purpose of which is to retire the shares purchased), acquisitions of LVMH shares by Group companies, and the impact of the LVMH liquidity contract.

In 2021, the impact on net cash and cash equivalents of changes in ownership interests in consolidated entities mainly arose from the acquisition of Tiffany.

In 2020, the impact on net cash and cash equivalents of changes in ownership interests in consolidated entities mainly arose from foreign exchange hedges implemented in anticipation of the acquisition of Tiffany. It also included acquisitions of LVMH shares by Group companies and the impact of the LVMH liquidity contract.

The brands and trade names recognized are those that the Group has acquired. As of December 31, 2022, the principal acquired brands and trade names were:

- Wines and Spirits: Hennessy, Moët & Chandon, Dom Pérignon, Veuve Clicquot, Krug, Château d'Yquem, Belvedere, Glenmorangie, Newton Vineyards, Bodega Numanthia, Château d'Esclans, Armand de Brignac and Joseph Phelps;
- Fashion and Leather Goods: Louis Vuitton, Fendi, Celine, Loewe, Givenchy, Kenzo, Berluti, Pucci, Loro Piana, Rimowa and Off-White:
- Perfumes and Cosmetics: Parfums Christian Dior, Guerlain, Parfums Givenchy, Make Up For Ever, Benefit Cosmetics, Fresh, Acqua di Parma, KVD Vegan Beauty, Fenty, Ole Henriksen, Maison Francis Kurkdjian and Officine Universelle Buly 1803;
- Watches and Jewelry: Tiffany, Bulgari, TAG Heuer, Zenith, Hublot, Chaumet, Fred and Repossi;
- Selective Retailing: DFS Galleria, Sephora and Le Bon Marché;

• Other activities: the publications of the media group Les Echos-Investir, the daily newspaper Le Parisien-Aujourd'hui en France, the Royal Van Lent-Feadship brand, La Samaritaine, the hotel group Belmond and the Cova pastry shop brand.

These brands and trade names are recognized in the balance sheet at their value determined as of the date of their acquisition by the Group, which may be much less than their value in use or their market value as of the closing date for the Group's consolidated financial statements. This is notably the case for the brands Louis Vuitton, Christian Dior Couture, Veuve Clicquot and Parfums Christian Dior, and the trade name Sephora, with the understanding that this list must not be considered exhaustive.

At the initial consolidation of LVMH in 1988, all brands then owned by LVMH were revalued in the consolidated financial statements of the Financière Agache group. In the Financière Agache consolidated financial statements, LVMH's accounts are restated to account for valuation differences in brands recorded prior to 1988 as well as intra-Group transactions in the consolidated accounts of each of these companies. See Note 1.5.

See Note 21 for goodwill arising on purchase commitments for minority interests' shares.

Changes in the scope of consolidation mainly arose from the acquisition of Joseph Phelps as well as the consolidation of acquisitions made prior to 2022, in particular Officine Universelle Buly and Feelunique, and from Sephora's disposal of its subsidiary in Russia. See Note 2.

Translation adjustments mainly related to goodwill recognized in US dollars, based on fluctuations in the US dollar-to-euro exchange rate between January 1 and December 31, 2022.

In 2021, changes in the scope of consolidation mainly resulted from the acquisition of Tiffany. See Note 2.

#### Impairment testing of intangible assets with indefinite useful lives Note 5.

Brands, trade names, and other intangible assets with indefinite useful lives as well as the goodwill arising on acquisition were subject to annual impairment testing. No significant impairment expense was recognized in respect of these items during the course of fiscal year 2022.

As described in Note 1.17, these assets are generally valued on the basis of the present value of forecast cash flows determined in the context of multi-year business plans drawn up each fiscal year. The consequences of the Covid-19 pandemic continue to disrupt the commercial operations of certain Maisons, particularly due to the decrease in business travel and tourist numbers in Asia. However, the Group believes that these disruptions are not likely to affect the achievement of objectives set in multi-year business plans.

The main assumptions used to determine these forecast cash flows are as follows:

| Business group               |                          | December 31, 2022                                                 |                                              |                  | Decem                                                             | ber 31, 2021                                 |                  | Decem                                                             | ber 31, 2020                                 |

Notes to the consolidated financial statements

Plans generally cover a five-year period, but may be prolonged up to ten years in the case of brands for which the production cycle exceeds five years or brands undergoing strategic repositioning.

Annual growth rates applied for the period not covered by the plans are based on market estimates for the business groups concerned.

As of December 31, 2022, the intangible assets with indefinite useful lives that are the most significant in terms of their carrying amounts and the criteria used for impairment testing are as follows:

As of December 31, 2022, four business segments disclosed intangible assets with a carrying amount close to their recoverable amount (including three for which the net carrying amount of intangible assets with indefinite useful lives is significant). Impairment tests relating to intangible assets with indefinite useful lives in these business segments have been carried out based on value in use. The amount of these intangible assets as of December 31, 2022 and the impairment loss that would result from a 1.5-point increase in the post-tax discount rate, a 1.0-point decrease in the growth rate for the period not covered by the plans, or a 4-point decrease in the compound annual growth rate for revenue compared to rates used as of December 31, 2022, break down as follows:

The Group considers that changes in excess of the limits mentioned above would entail assumptions at a level not deemed relevant in view of the current economic environment and medium- to long-term growth prospects for the business segments concerned. Moreover, a four-point decrease in the average growth rate for revenue over the plan period is a pessimistic assumption with a very low probability of occurrence.

As of December 31, 2022, the gross and net values of brands, trade names and goodwill giving rise to amortization and/

or impairment charges in 2022 were 471 million euros and 193 million euros, respectively (1,087 million euros and 931 million euros as of December 31, 2021).

Impairment and amortization expenses recognized during fiscal year 2022 came to 50 million euros. See Note 26.

Notes to the consolidated financial statements

"Other property, plant and equipment" included in particular the works of art owned by the Group.

In 2022, as in 2021, purchases of property, plant and equipment mainly included investments by the Group's Maisons notably Christian Dior, Louis Vuitton, Tiffany and Sephora - in their retail networks. They also included investments by the champagne houses, Hennessy and Louis Vuitton in their production equipment, as well as investments relating to the Group's hotel activities.

In the second half of 2022, an investment was made in several buildings in Paris, which resulted in particular in the Group acquiring full ownership of the premises serving as LVMH's headquarters, in which it had previously held a 40% stake, recognized under "Investments in joint ventures and associates". The previously held stake was remeasured (see Note 26) and the corresponding investment (see Note 8) was reclassified under "Property, plant and equipment" at its new value.

Changes in the scope of consolidation mainly resulted from the acquisition of Joseph Phelps. See Note 2.

Translation adjustments on property, plant and equipment mainly related to fixed assets recognized in US dollars, based on fluctuations in the US dollar-to-euro exchange rate between January 1 and December 31, 2022.

The market value of investment property, according to appraisals by independent third parties, was at least 0.6 billion euros as of December 31, 2022. The valuation methods used are based on market data.

In 2021, disposals of property, plant and equipment mainly included the sale of the Belmond Charleston hotel; changes in the scope of consolidation mainly resulted from the acquisition of Tiffany. See Note 2.

Purchases of property, plant and equipment in fiscal year 2020 mainly included investments by the Group's brands in their retail networks and investments by the champagne houses, Hennessy and Louis Vuitton in their production equipment, as well as investments relating to the Group's hotel activities.

"New leases entered into" involved store leases, in particular for Louis Vuitton, Tiffany, Christian Dior Couture and DFS. They also included leases of office space, mainly for Tiffany and the holding companies. Changes in assumptions mainly resulted from adjustments to estimated lease terms. These two types of changes led to corresponding increases in right-of-use assets and lease liabilities.

Changes in the scope of consolidation mainly related to Sephora's disposal of its subsidiary in Russia.

Translation adjustments mainly related to leases recognized in US dollars, based on fluctuations in the US dollar-to-euro exchange rate between January 1 and December 31, 2022.

In certain countries, leases for stores entail the payment of both minimum amounts and variable amounts, especially for stores with lease payments indexed to revenue.

As required by IFRS 16, only the minimum fixed lease payments are capitalized. "Other lease expenses" mainly relate to variable lease payments.

For leases not required to be capitalized, there is little difference between the expense recognized and the payments made.

As part of the active management of its retail network, the Group negotiates and enters into leases with commencement dates after the balance sheet date. Obligations to make payments under these leases are reported as off-balance sheet commitments rather than being recognized as lease liabilities.

In addition, the Group may enter into leases or concession contracts that have variable guaranteed amounts, which are not reflected in the commitments above.

#### 7.6 Discount rates

The average discount rate for lease liabilities breaks down as follows for leases in effect as of December 31, 2022:

#### 7.7 Termination and renewal options

The term used to calculate the lease liability is generally the contractual term of the lease. Special cases may exist where an early termination option or a renewal option is reasonably certain to be exercised, and as such the lease term used to calculate the lease liability is reduced or extended, respectively.

The table below presents the impact of these assumptions on lease liabilities recognized as of December 31, 2022:

| (EUR millions)                          |                   |                     |                 | As of           | December 31, 2022           |

As of December 31, 2022, investments in joint ventures and associates consisted primarily of the following:

- For joint arrangements:
  - a 50% stake in the Château Cheval Blanc wine estate (Gironde, France), which produces the eponymous Saint-Émilion Grand Cru Classé A;
  - a 50% stake in hotel and rail transport activities operated by Belmond in Peru.
- For other companies:
  - a 40% stake in L Catterton Management, an investment fund management company created in December 2015 in partnership with Catterton;
  - a 49% stake in Stella McCartney, a London-based ready-to-wear brand.

Changes in the scope of consolidation in fiscal year 2021 mainly resulted from the change in the method of accounting for Le Peigné SA, the exercise of the Lagardère Capital liquidity pledge and the acquisition of a stake in Off-White Srl via Off-White LLC. See Note 2.

Notes to the consolidated financial statements

As of December 31, 2021 and December 31, 2020, investments in joint ventures and associates included a 40% stake in Mongoual SA, the real estate company that owns the office building in Paris (France) that serves as the headquarters of LVMH Moët Hennessy Louis Vuitton SE. LVMH acquired the remaining 60% stake in Mongoual SA during fiscal year 2022. See Note 6.

#### Non-current available for sale financial assets Note 9.

Non-current available for sale financial assets changed as follows during the fiscal years presented:

Recognized within "Net financial income/(expense)" for the non-current available for sale financial assets held and, in 2021, partly within "Other operating income and expenses" (see Note 26) for the LVMH group. For the non-current available for sale financial assets of companies at the Financière Agache sub-consolidation level, the change in fair value is recognized within "Revaluation reserves". See Note 1.18.

Changes in the scope of consolidation in 2022 related to the initial consolidation of various acquisitions carried out in prior years that had temporarily not been consolidated due to their low materiality, as well as the merger by absorption of Europatweb SA by Financière Agache.

## 16.6 Strategy relating to the Group's financial structure

The Group believes that the management of its financial structure, together with the development of the companies it owns and the management of its brand portfolio, helps create value for its shareholders. Maintaining a suitable-quality credit rating is a core objective for the Group, ensuring good access to markets under favorable conditions, allowing it to seize opportunities and procure the resources it needs to develop its business.

To this end, the Group monitors a certain number of financial ratios and aggregate measures of financial risk, including:

- net financial debt (see Note 19) to equity;
- cash from operations before changes in working capital to net financial debt;
- net cash from operating activities;
- operating free cash flow (see the consolidated cash flow statement);

- long-term resources to fixed assets;
- proportion of long-term borrowings in net financial debt.

Long-term resources are understood to correspond to the sum of equity and non-current liabilities.

Where applicable, these indicators are adjusted to reflect the Group's off-balance sheet financial commitments.

The Group also promotes financial flexibility by maintaining numerous and varied banking relationships, through frequent recourse to several negotiable debt markets (both shortand long-term), by holding a large amount of cash and cash equivalents, and through the existence of sizable amounts of undrawn confirmed credit lines, intended to cover - and exceed - the outstanding portion of short-term negotiable debt securities programs, while continuing to represent a reasonable cost for the Group.

Minority interests are essentially composed of the following:

- LVMH SE shareholders, excluding controlling interests (Christian Dior SE and Financière Agache), i.e. 53% of shares as of December 31, 2022. They were paid a total of 3,183 million euros in dividends during the fiscal year;
- Christian Dior SE shareholders other than Financière Agache (i.e. 4% of shares as of December 31, 2022). They were paid a total of 85 million euros in dividends during the fiscal year;
- minority interests also include Diageo's 34% stake in Moët Hennessy SAS and Moët Hennessy International SAS ("Moët Hennessy"), and the 39% stake held by Mari-Cha Group Ltd in DFS. Since the 34% stake held by Diageo in Moët Hennessy is subject to a purchase commitment, it is reclassified at the period-end within "Purchase commitments for minority interests' shares" under "Other non-current liabilities" and is therefore excluded from the total amount of minority interests at the period-end. See Notes 1.14 and 21.

Dividends paid to Diageo in fiscal year 2022 amounted to 217 million euros in respect of fiscal year 2021. Net profit attributable to Diageo for fiscal year 2022 was 480 million euros, and its share in accumulated minority interests (before recognition of the purchase commitment granted to Diageo) came to 4,265 million euros as of December 31, 2022. As of that date, the condensed consolidated balance sheet of Moët Hennessy was as follows:

<sup>(</sup>a) Including 4,050 million euros in respect of proceeds from borrowings; 5,282 million euros in respect of repayment of borrowings; 43 million euros due to the decrease in accounts payable to affiliated companies; and 4 million euros due to a reduction in bank overdrafts.

In 2017, as part of the public offer for Christian Dior, Semyrhamis, a wholly owned subsidiary of Financière Agache, with which Financière Agache merged in fiscal year 2020, subscribed 9.0 billion euros in syndicated loans, with initial maturities (before any extensions by the borrower) of between eighteen months and five years. In the first half of 2022, Financière Agache repaid 0.8 billion euros in advance, thereby settling all the loans taken out in 2017 as part of the public offer for Christian Dior.

During the fiscal year, LVMH repaid the 1,750 million euro bond issued in 2020, as well as the 800 million euro bond and the 400 million pound bond both issued in 2017. The associated hedging swaps were unwound on redemption.

In December 2021, Financière Agache SA issued 60 million euros in bonds maturing in December 2028. These bond are redeemable at par and pay a coupon of 0.861%.

During fiscal year 2021, Christian Dior repaid the 350 million euro bond issued in 2016, in advance of its scheduled maturity in June 2021.

During fiscal year 2021, LVMH repaid the 300 million euro bond issued in 2019. The remaining cash-settled convertible bonds issued in 2016, with an initial face value of 750 million US dollars, were also redeemed, in the amount of 156 million US dollars. An amount of 594 million US dollars was redeemed early at the end of 2020, following the exercise of the conversion clause by bondholders. See Note 19 to the 2020 consolidated financial statements for details on the repayment of these bonds. Lastly, LVMH completed the redemption of the 650 million euro bond issued in 2014. The associated hedging swaps were unwound on redemption. Tiffany's bond debt was recognized at its market value at the date of consolidation, i.e. 940 million euros. It comprised four issues in US dollars for a total nominal amount of 800 million US dollars, and an issue of 10 billion Japanese yen.

In February and April 2020, LVMH completed eight bond issues totaling 10.7 billion euros to finance in particular the acquisition of Tiffany & Co., which was completed on January 7, 2021. See Note 19.2 below for details on these bond issues.

The market value of gross borrowings, based on market data and commonly used valuation models, was 19,653 million euros as of December 31, 2022 (22,611 million euros as of December 31, 2021 and 28,122 million euros as of December 31, 2020), including 10,412 million euros in short-term borrowings (9,876 million euros as of December 31, 2021 and 11,835 million euros as of December 31, 2020) and 9,241 million euros in long-term borrowings (12,735 million euros as of December 31, 2021 and 16.286 million euros as of December 31, 2020).

As of December 31, 2022, 2021 and 2020, no financial debt was recognized using the fair value option. See Note 1.23.

| Total <sup>(a)</sup> | 21,697        | 23,338        | 27,939        |

<sup>(</sup>a) The amounts presented above include the impact of swaps to convert Group-level financing into subsidiaries' functional currencies, whether these subsidiaries are borrowers or lenders in the currency concerned.

## 19.5 Undrawn confirmed credit lines and covenants

As of December 31, 2022, undrawn confirmed credit lines totaled 14.3 billion euros. This amount exceeded the outstanding portion of the short-term negotiable debt securities programs (NEU CP, euro- and US dollar-denominated commercial paper), which totaled 8.2 billion euros as of December 31, 2022.

In connection with certain credit lines, the Group may undertake to maintain certain financial ratios. As of December 31, 2022, no significant credit lines were concerned by these provisions.

## 19.6 Sensitivity

On the basis of debt as of December 31, 2022:

- an instantaneous 1.5-point increase in the yield curves of the Group's debt currencies would raise the cost of net financial debt by 174 million euros after hedging, and would lower the market value of gross fixed-rate borrowings by 414 million euros after hedging;
- an instantaneous 1.5-point decrease in these same yield curves would lower the cost of net financial debt by 174 million euros after hedging, and would raise the market value of gross fixed-rate borrowings by 414 million euros after hedging.

### 19.7 Guarantees and collateral

As of December 31, 2022, borrowings secured by collateral were less than 350 million euros.

<sup>(</sup>a) Including the impact of translation adjustment and change in revaluation reserves. See Note 30 regarding "Provisions for pensions, medical costs and similar commitments".

Provisions for contingencies and losses correspond to the estimate of the impact on assets and liabilities of risks, disputes (see Note 32), or actual or probable litigation arising from the Group's activities; such activities are carried out worldwide, within what is often an imprecise regulatory framework that is different for each country, changes over time and applies to areas ranging from product composition and packaging to relations with the Group's partners (distributors, suppliers, shareholders in subsidiaries, etc.).

Non-current liabilities related to uncertain tax positions include an estimate of the risks, disputes, and actual or probable litigation related to the income tax computation. The Group's entities in France and abroad may be subject to tax inspections and, in certain cases, to rectification claims from local administrations. A liability is recognized for these rectification claims, together with any uncertain tax positions that have been identified but not yet officially notified, the amount of which is regularly reviewed in accordance with the criteria of the application of IFRIC 23 Uncertainty over Income Tax Treatments.

### Note 21. Purchase commitments for minority interests' shares

As of December 31, 2022, purchase commitments for minority interests' shares mainly included the put option granted by LVMH to Diageo plc for its 34% share in Moët Hennessy for 80% of the fair value of Moët Hennessy at the exercise date of the option. This option may be exercised at any time subject to a six-month notice period. The fair value of this commitment was calculated by applying the share price multiples of comparable firms to Moët Hennessy's consolidated operating results.

Moët Hennessy SAS and Moët Hennessy International SAS ("Moët Hennessy") hold the LVMH group's investments in the Wines and Spirits businesses, with the exception of the equity investments in Château d'Yquem, Château Cheval Blanc, Clos des Lambrays and Colgin Cellars, and excluding certain champagne vineyards.

Purchase commitments for minority interests' shares also include commitments relating to minority shareholders in Loro Piana (15%), and distribution subsidiaries in various countries, mainly in the Middle East.

# Financial instruments and market risk management

# 23.1 Organization of foreign exchange, interest rate and equity market risk management

Financial instruments are mainly used by the Group to hedge risks arising from Group activity and protect its assets.

The management of foreign exchange and interest rate risk, in addition to transactions involving shares and financial instruments, is centralized at each sub-consolidation level.

The Group has implemented a stringent policy and rigorous management guidelines to manage, measure and monitor these market risks.

These activities are organized based on a segregation of duties between risk measurement (middle office), hedging (front office), administration (back office) and financial control.

This organization relies on information systems that allow transactions to be checked quickly.

Hedging decisions are made according to an established process that includes regular presentations to the management bodies concerned and detailed documentation.

Counterparties are selected based on their rating and in accordance with the Group's risk diversification strategy.

# 23.3 Derivatives used to manage interest rate risk

The aim of the Group's debt management policy is to adapt the debt maturity profile to the characteristics of the assets held, to curb borrowing costs, and to protect net profit from the impact of significant changes in interest rates.

For these purposes, the Group uses interest rate swaps and options.

Derivatives used to manage interest rate risk outstanding as of December 31, 2022 break down as follows:

## 23.4 Derivatives used to manage foreign exchange risk

A significant portion of Group companies' sales to customers and to their own distribution subsidiaries as well as certain purchases are denominated in currencies other than their functional currency; the majority of these foreign currency-denominated cash flows are intra-Group cash flows. Hedging instruments are used to reduce the foreign exchange risks arising from the fluctuations of currencies against the exporting and importing companies' functional currencies, and are allocated to either trade receivables or payables (fair value hedges) for the fiscal year, or to transactions anticipated for future fiscal years (hedges of future cash flows).

Future foreign currency-denominated cash flows are broken down as part of the budget preparation process and are hedged progressively over a period not exceeding one year unless a longer period is justified by probable commitments. As such, and according to market trends, identified foreign exchange risks are hedged using forward contracts or options.

In addition, the Group is exposed to foreign exchange risk with respect to the Group's net assets, as it owns assets denominated in currencies other than the euro. This foreign exchange risk may be hedged either partially or in full through foreign currency borrowings or by hedging the net worth of subsidiaries outside the eurozone, using appropriate financial instruments with the aim of limiting the impact of foreign currency fluctuations against the euro on consolidated equity.

## 23.5 Financial instruments used to manage other risks

The Group's investment policy is designed to take advantage of a long-term investment horizon. Occasionally, the Group may invest in equity-based financial instruments with the aim of enhancing the dynamic management of its investment portfolio.

The Group is exposed to risks of share price changes either directly (as a result of its holding of subsidiaries, equity investments and current available for sale financial assets) or indirectly (as a result of its holding of funds, which are themselves partially invested in shares).

The Group may also use equity-based derivatives to synthetically create an economic exposure to certain assets, to hedge cash-settled compensation plans index-linked to the LVMH share price, or to hedge certain risks related to changes in the LVMH share price. As of December 31, 2022, there were no equity-based derivatives outstanding.

The Group - mainly through its Watches and Jewelry business group - may be exposed to changes in the prices of certain precious metals, such as silver, gold and platinum. In certain cases, in order to ensure visibility with regard to production costs, hedges may be implemented. This is achieved either by negotiating the forecast price of future deliveries of alloys with precious metal refiners, or the price of semi-finished products with producers; or directly by purchasing hedges from top-ranking banks. In the latter case, precious metals may be purchased from banks, or future and/or options contracts may be taken out with a physical delivery of these metals. Derivatives outstanding relating to the hedging of precious metal prices as of December 31, 2022 had a positive market value of 4 million euros. Considering nominal values of 230 million euros for those financial instruments, a uniform 1% change in their underlying assets' prices as of December 31, 2022 would have a negative net impact on the Group's consolidated reserves of 1 million euros. These instruments will mature in 2023.

(a) See Note 1.11 for information on the valuation approaches used.

Derivatives used by the Group are measured at fair value according to commonly used valuation models and based on market data. The counterparty risk associated with these derivatives (i.e. the credit valuation adjustment) is assessed on the basis of credit spreads from observable market data, as well as on the basis of the derivatives' market value adjusted by flat-rate add-ons depending on the type of underlying and the maturity of the derivative. It was not significant as of December 31, 2022, December 31, 2021 and December 31, 2020.

The amount of financial assets valued on the basis of private quotations changed as follows in the fiscal year ended December 31, 2022:

<sup>(</sup>a) See Notes 1.10 and 1.24 on the principles of fair value adjustments to foreign exchange risk hedging instruments.

Since fair value adjustments to hedged items recognized in the balance sheet offset the effective portions of fair value hedging instruments (see Note 1.22), no ineffective portions of foreign exchange hedges were recognized during the fiscal year.

## 23.8 Sensitivity analysis

The impact on the income statement of gains and losses on hedges of future cash flows, as well as the future cash flows hedged using these instruments, will mainly be recognized in 2023; the amount will depend on exchange rates at that date. The impact on net profit for fiscal year 2022 of a 10% change in

the value of the US dollar, the Japanese yen, the pound sterling and the Hong Kong dollar against the euro, including impact of foreign exchange derivatives outstanding during the period, compared with the rates applying to transactions in 2022, would have been as follows:

| (EUR millions)                                              | U    | US dollar |      | Japanese yen |      | Pound sterling |      | Hong Kong dollar |  |

Notes to the consolidated financial statements

The data presented in the table above should be assessed on the basis of the characteristics of the hedging instruments outstanding in fiscal year 2022, mainly comprising options and collars.

As of December 31, 2022, forecast cash collections for 2023 in US dollars and Japanese ven were 79% and 68% hedged, respectively. For the hedged portion, due to the optional nature of the hedging instruments, the exchange rate upon sale will be more favorable than 1.08 USD/EUR for the US dollar and 137 JPY/EUR for the Japanese yen.

The Group's net equity (excluding net profit) exposure to foreign currency fluctuations as of December 31, 2022 can be assessed by measuring the impact of a 10% change in the value of the US dollar, the Japanese yen, the pound sterling and the Hong Kong dollar against the euro compared to the rates applying as of the same date:

| (EUR millions)                                             | US dollar |         | Japanese yen |      | Pound sterling |       | Hong Kong dollar |       |

## 23.9 Liquidity risk

In addition to local liquidity risks, which are generally immaterial, the Group's exposure to liquidity risk can be assessed in relation to the amount of its short-term borrowings excluding derivatives, i.e. 10.4 billion euros, lower than the 13.3 billion euro balance of cash and cash equivalents and current available for sale financial assets; or in relation to the outstanding amount of its short-term negotiable debt securities programs, i.e. 8.2 billion euros. Should

any of these borrowing facilities not be renewed, the Group has access to undrawn confirmed credit lines totaling 14.3 billion euros.

The Group's liquidity is based on the amount of its investments, its capacity to secure long-term borrowings, the diversity of its investor base (short-term paper and bonds), and the quality of its banking relationships, whether evidenced or not by confirmed lines of credit.

The following table presents the contractual schedule of disbursements for financial liabilities (excluding derivatives) recognized as of December 31, 2022, at nominal value and with interest, excluding discounting effects:

| (EUR millions)                               | 2023   | 2024  | 2025  | 2026  | 2027  | More than<br>5 years | Total  |

### Segment information Note 24.

The Group's brands and trade names are organized into six business groups. Four business groups - Wines and Spirits, Fashion and Leather Goods, Perfumes and Cosmetics, and Watches and Jewelry - comprise brands dealing with the same category of products that use similar production and distribution processes. Information on Louis Vuitton, Bulgari and Tiffany is presented according to the brand's main business, namely the Fashion and Leather Goods business group for Louis Vuitton and the Watches and Jewelry business group for Bulgari and Tiffany.

The Selective Retailing business group comprises the Group's own-label retailing activities. The "Other and holding companies" business group comprises brands and businesses that are not associated with any of the above-mentioned business groups, particularly the media division, the Dutch luxury yacht maker Royal Van Lent, hotel operations and holding or real estate companies.

NS: Not significant.

Audit-related fees include other services related to the certification of the consolidated and parent company financial statements, for non-material amounts.

In addition to tax services – which are mainly performed outside France to ensure that the Group's subsidiaries and expatriates

meet their local tax filing obligations - non-audit-related services include various types of certifications, mainly those required by lessors concerning the revenue of certain stores, verification of the statement of non-financial performance, and specific checks run at the Group's request, mainly in countries where statutory audit is not required.

Net gains/(losses) on disposals mainly relate to Sephora's sale of its subsidiary in Russia, which was finalized in October 2022.

Impairment and amortization expenses recorded in 2022 were primarily for brands and goodwill.

In 2022, the remeasurement of shares acquired prior to their initial consolidation resulted from the acquisition of the remaining 60% stake in Mongoual SA, in which the Group previously held a 40% stake, recognized under "Investments in joint ventures and associates" (see Note 8).

<sup>(</sup>a) Tax on distribution is mainly related to intra-Group dividends.

The Group's effective tax rate was 26.9% in 2022, compared with 26.6% in 2021 and 32.7% in 2020.

As of December 31, 2022, the effective tax rate was up 0.3 points from December 31, 2021, mainly due to the impact of taxes on intra-Group dividends.

## 28.5 Losses carried forward

As of December 31, 2022, unused tax loss carryforwards and tax credits for which no assets were recognized (deferred tax assets or receivables) represented potential tax savings of 401 million euros (565 million euros as of December 31, 2021 and 590 million euros as of December 31, 2020).

### 28.6 Tax consolidation

- France's tax consolidation system allows virtually all of the Group's French companies to combine their taxable profits to calculate the overall tax expense, for which only the consolidating parent company is liable.
  - Financière Agache and its French subsidiaries in which it has an ownership interest of more than 95%, including Christian Dior, are part of a tax consolidation group, the parent company of which is Agache SCA.
  - LVMH SE and most of its French subsidiaries in which it has an ownership interest of more than 95% comprise another tax
- consolidation group, the consolidating parent company of which is LVMH SE. This tax consolidation system generated current tax savings of 66 million euros in 2022 (compared with tax savings of 91 million euros in 2021 and 251 million euros in 2020).
- The other tax consolidation systems in place, notably in the United States, generated current tax savings of 54 million euros in fiscal year 2022 (36 million euros in 2021 and 93 million euros in 2020).

| Defined-benefit obligation | 2,567         | 3,128         | 2,144         |

The main components of the Group's net commitment for retirement and other defined-benefit obligations as of December 31, 2022 are as follows:

- In France:
  - these commitments include the commitment to the Group's senior executives and members of LVMH's Executive Committee, who were covered by a supplementary pension plan after a certain number of years of service, the amount of which was determined on the basis of the average of their three highest amounts of annual compensation. Pursuant to the Order of July 3, 2019, this supplementary pension plan has been closed, and the rights frozen as of December 31, 2019;
  - they also include end-of-career bonuses and long-service awards, the payment of which is determined by French law and collective bargaining agreements, respectively upon retirement or after a certain number of years of service.
- In Europe (excluding France), commitments concern defined-benefit pension plans set up in the United Kingdom by certain Group companies; participation by Group companies in Switzerland in the mandatory Swiss occupational pension plan, the LPP (Loi pour la Prévoyance Professionnelle); and in Italy the TFR (Trattamento di Fine Rapporto), a legally required end-of-service allowance, paid regardless of the reason for the employee's departure from the company.
- In the United States, the commitment relates to definedbenefit pension plans or retiree healthcare coverage set up by certain Group companies, Tiffany in particular. Most of the commitment concerns qualified pension plans as defined in the United States Internal Revenue Code.

## 30.5 Breakdown of related plan assets

The breakdown of the market value of plan assets by type of investment is as follows:

| (as % of market value of related plan assets)        | Dec. 31, 2022 | Dec. 31, 2021 | Dec. 31, 2020 |
|------------------------------------------------------|---------------|---------------|---------------|

| Investments in joint venture shares and non-current available for sale financial assets | 699           | 633           | 13,459        |

Some Wines and Spirits companies have contractual purchase arrangements with various local producers for the future supply of grapes, still wines and eaux-de-vie. These commitments are valued, depending on the nature of the purchases, on the basis of the contractual terms or known fiscal year-end prices and estimated production yields.

As of December 31, 2020, share purchase commitments included the impact of LVMH's commitment to acquire, for cash, all the shares of Tiffany & Co. ("Tiffany"), for a total of 16.1 billion US dollars. The transaction was completed on January 7, 2021. See also Note 2.2.

As of December 31, 2022, the maturity schedule of these commitments was as follows:

### 31.3 Other commitments

The Group is not aware of any significant off-balance sheet commitments other than those described above.

#### Exceptional events and litigation Note 32.

As part of its day-to-day management, the Group may be party to various legal proceedings concerning trademark rights, personal data protection, the protection of intellectual property rights, the protection of selective retailing networks, consumer protection, licensing agreements, employee relations, tax audits, and any other matters inherent to its business. The Group believes that the provisions recorded in the balance sheet in respect of these risks, litigation proceedings and disputes that are in progress

and any others of which it is aware at the year-end, are sufficient to avoid its consolidated financial position being materially impacted in the event of an unfavorable outcome.

To the best of the Company's knowledge, there are no pending or impending administrative, judicial or arbitration procedures that are likely to have, or have had over the twelve-month period under review, any significant impact on the Group's financial position or profitability.

#### Related-party transactions Note 33.

## 33.1 Relations of the Financière Agache group with Agache and its subsidiaries

The Financière Agache group is consolidated in the accounts of Agache SCA.

Agache SCA, which has specialist teams, provides assistance to the Financière Agache group, primarily in the areas of financial engineering, strategy, development, and corporate and real estate law. Agache SCA also leases office premises to the Financière Agache group.

Conversely, Agache leases office space from the Financière Agache group, and the Financière Agache group also provides Agache with various forms of administrative assistance.

# 33.2 Relations of the Financière Agache group with Diageo

Moët Hennessy SAS and Moët Hennessy International SAS (hereinafter referred to as "Moët Hennessy") hold the LVMH group's investments in the Wines and Spirits business group, with the exception of Château d'Yquem, Château Cheval Blanc, Domaine du Clos des Lambrays, Colgin Cellars and certain champagne vineyards. Diageo holds a 34% stake in Moët Hennessy. When that holding was acquired in 1994, an agreement was entered into between Diageo and LVMH for the

apportionment of shared holding company costs between Moët Hennessy and the other holding companies of the LVMH group.

Under this agreement, Moët Hennessy assumed 12% of shared costs in 2022 (13% in 2021 and 14% in 2020), and accordingly re-invoiced the excess costs incurred to LVMH SE. After re-invoicing, the amount of shared costs assumed by Moët Hennessy came to 21 million euros for 2022 (19 million euros in 2021 and 22 million euros in 2020).

### 33.3 Relations with the Fondation Louis Vuitton

In October 2014, the Fondation Louis Vuitton opened a modern and contemporary art museum in Paris. The LVMH group finances the Fondation as part of its corporate giving initiatives. Its net contributions to this project are included in "Property,

plant and equipment" and are depreciated from the time the museum opened (October 2014) over the remaining duration of the public property use agreement awarded by the City of Paris.

The companies which are not included in the scope of consolidation are either entities that are inactive and/or being liquidated, or entities whose individual or collective consolidation would not have a significant impact on the Group's main aggregates.

#### 9. Statutory Auditors' report on the consolidated financial statements

To the Shareholders' Meeting of Financière Agache SA,

### **Opinion**

In compliance with the engagement entrusted to us by your Shareholders' Meeting, we have audited the accompanying consolidated financial statements of Financière Agache SA for the fiscal year ended December 31, 2022.

In our opinion, the consolidated financial statements give a true and fair view of the Group's assets, liabilities and financial position as of December 31, 2022 and of the results of its operations for the fiscal year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

The audit opinion expressed above is consistent with our report to the Audit Committee.

### Basis for our opinion

### Audit framework

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the section of our report entitled "Statutory Auditors' responsibilities for the audit of the consolidated financial statements"

### Independence

We conducted our audit engagement in compliance with the independence rules provided by the French Commercial Code (Code de commerce) and the French Code of Ethics (Code de déontologie) for Statutory Auditors, for the period from January 1, 2022 to the date of our report. We did not provide any prohibited non-audit services referred to in Article 5 (1) of Regulation (EU) No. 537/2014,

#### Justification of assessments - Key audit matters III.

In accordance with the requirements of Articles L. 823-9 and R. 823-7 of the French Commercial Code (Code de commerce) relating to the justification of our assessments, we inform you of the key audit matters relating to risks of material misstatement which, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the fiscal year, as well as how we addressed those risks.

These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon. We do not provide a separate opinion on specific items of the consolidated financial statements.

### Valuation of fixed assets, in particular intangible assets

### Risk identified

As of December 31, 2022, the value of the Group's fixed assets totaled 85.4 billion euros. These fixed assets mainly comprise brands, trade names and goodwill recognized on external growth transactions; property, plant and equipment (land, vineyard land, buildings, and fixtures and fittings at stores and hotels in particular); and right-of-use assets.

We considered the valuation of these fixed assets – in particular intangible assets (brands, trade names and other intangible assets with indefinite useful lives, as well as goodwill) - to be a key audit matter, due to their significance in the Group's financial statements and because the determination of their recoverable amount, which is usually based on each Maison's discounted forecast cash flows, requires the use of assumptions, estimates and other forms of judgment, as specified in Notes 1.17 and 5 to the consolidated financial statements.

### Our response

The Group tests these assets for impairment, as described in Notes 1.17 and 5 to the consolidated financial statements. In this context, we assessed the methods used to perform these impairment tests and focused our work primarily on the Maisons most affected by the negative changes in the current business environment, or where the carrying amount of intangible assets represents a high multiple of profit from recurring operations. In the context of our audit of the consolidated financial statements, our work, carried out in conjunction with our valuation experts, consisted in particular in:

- Obtaining an understanding of the methods used to perform these impairment tests and assessing the relevance of the measurement method used by the Group with regard to the applicable accounting standard;
- Reconciling the components of the carrying amount of the Maisons used to conduct impairment tests with the consolidated financial statements:
- Assessing the reasonableness of the future cash flows used:
  - by analyzing the relevance and consistency of the process used to produce these estimates by comparing results with previous forecasts, and
  - by comparing the Maisons' business plans on which these cash flows were based with the budgets and forecasts approved by management as well as the market outlook;
- Assessing the reasonableness, with regard to market data, of the perpetual growth rates and discount rates used for each Maison;
- Conducting our own sensitivity analyses on the growth rates, margins and discount rates used to calculate recoverable amounts;
- Corroborating the recoverable amounts estimated by comparison with recent similar transactions with the analyses provided and available market data;
- Assessing the appropriateness of the information disclosed in the notes to the consolidated financial statements.

### Valuation of inventories and work in progress

### Risk identified

As of December 31 2022, the gross value of inventories and work in progress and the total amount of impairment of inventories and work in progress came to 23,406 million euros and 2,727 million euros, respectively, as presented in Note 11 to the consolidated financial statements.

The success of the Group's products depends among other factors on its ability to identify new trends as well as changes in behaviors and tastes, enabling it to offer products that meet consumers' expectations. The Group determines the amount of impairment of inventories and work in progress on the basis of sales prospects in its various markets or due to product obsolescence, as specified in Note 1.19 to the consolidated financial statements.

We considered the valuation and impairment of inventories and work in progress to constitute a key audit matter since the aforementioned projections and any resulting impairment are intrinsically dependent on assumptions, estimates and other forms of judgment made by the Group, as indicated in Note 1.7 to the consolidated financial statements. Furthermore, inventories are present at a large number of subsidiaries, and determining their gross value and impairment depends in particular on estimated returns and on the monitoring of internal margins, which are eliminated in the consolidated financial statements unless and until inventories are sold to non-Group clients.

### Our response

As part of our procedures, we analyzed sales prospects as estimated by the Group in light of past performance and the most recent budgets in order to assess the resulting impairment amounts. Where applicable, we assessed the assumptions made for the recognition of non-recurring impairment.

We also assessed the consistency of internal margins eliminated in the consolidated financial statements, by assessing in particular the margins generated with the various distribution subsidiaries and comparing them to the elimination percentage applied.

We assessed the appropriateness of the information disclosed in the notes to the consolidated financial statements.

### Provisions for contingencies, losses and uncertain tax positions

### Risk identified

The Group's activities are carried out worldwide, within what is often an imprecise regulatory framework that is different for each country, changes over time and applies to areas ranging from product composition and packaging to the income tax computation and relations with the Group's partners (distributors, suppliers, shareholders in subsidiaries, etc.). Within this context, the Group's activities may give rise to risks, disputes or litigation, and the Group's entities in France and abroad may be subject to tax inspections and, in certain cases, to rectification claims from local administrations.

As indicated in Notes 1.22 and 20 to the consolidated financial statements:

- provisions for contingencies and losses correspond to the estimate of the impact on assets and liabilities of risks, disputes, or actual or probable litigation arising from the Group's activities;
- non-current liabilities related to uncertain tax positions include an estimate of the risks, disputes and actual or probable litigation related to the income tax computation, in accordance with IFRIC 23.

We considered provisions for contingencies, losses and uncertain tax positions to constitute a key audit matter due to the significance of the amounts concerned (1,454 million euros and 1,359 million euros, respectively, as of December 31, 2022), the importance of monitoring ongoing regulatory changes and the level of judgment involved in evaluating these provisions in the context of a constantly evolving international regulatory environment.

### Our response

In the context of our audit of the consolidated financial statements, our work consisted in particular in:

- assessing the procedures implemented by the Group to identify and catalogue all risks, disputes, litigation and uncertain tax positions;
- obtaining an understanding of the risk analysis performed by the Group and the corresponding documentation and, where applicable, reviewing written confirmations from external advisors;
- assessing with our experts, tax specialists in particular the main risks identified and assessing the assumptions made by Group management to estimate the amount of the provisions and of liabilities related to uncertain tax positions;
- carrying out a critical review of analyses relating to the use of provisions for contingencies and losses, and of liabilities related to uncertain tax positions, prepared by the Group;
- assessing with our tax specialists the evaluations drawn up by the Group's Tax Department relating to the consequences of changes in tax laws;
- assessing the appropriateness of information relating to these risks, disputes, litigation and uncertain tax positions disclosed in the notes to the financial statements.

#### Specific verifications IV.

In accordance with professional standards applicable in France, we also performed the specific verifications required by laws and regulations of the information concerning the Group provided in the Board of Directors' report on Group management.

We have no matters to report as to this information's fair presentation and its consistency with the consolidated financial statements.

We attest that the consolidated statement of non-financial performance provided for by Article L. 225-102-1 of the French Commercial Code (Code de commerce) is included in the Group's Management Report, with the proviso that, in accordance with the provisions of Article L. 823-10 of said code, we have verified neither the fair presentation nor the consistency with the consolidated financial statements of the information contained in this statement, which must be subject to a report by an independent verifier,

## Other verifications or information required by laws and regulations

### Appointment of the Statutory Auditors

We were appointed as Statutory Auditors of Financière Agache SA by the shareholders at your Shareholders' Meetings held on June 27, 1997 (for Mazars) and April 27, 2022 (for Deloitte & Associés)

As of December 31, 2022, Mazars was in the twenty-sixth consecutive year of its engagement (including twenty-four years since the Company's securities were admitted to trading on a regulated market) and Deloitte & Associés was in its first year.

### Responsibilities of management and those charged with governance for the consolidated VI. financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, for disclosing any matters related to going concern, and for using the going concern basis of accounting unless it is expected to liquidate the Company or to cease operations.

The Audit Committee is responsible for monitoring the financial reporting process and the effectiveness of internal control and risk management systems and where applicable, internal audit, regarding accounting and financial reporting procedures.

The consolidated financial statements have been approved by the Board of Directors.

## Statutory Auditors' responsibilities for the audit of the consolidated financial statements

### Objectives and audit approach

Our role is to issue a report on the consolidated financial statements. Our objective is to obtain reasonable assurance as to whether the consolidated financial statements taken as a whole are free from material misstatement.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As specified in Article L. 823-10-1 of the French Commercial Code (Code de commerce), our statutory audit does not include assurance on the viability or the quality of management of your Company.

As part of an audit conducted in accordance with professional standards applicable in France, the Statutory Auditor exercises professional judgment throughout the audit. The Statutory Auditor also:

identifies and assesses the risks of material misstatement of the consolidated financial statements, whether due to fraud or error; designs and performs audit procedures responsive to those risks; and obtains audit evidence considered to be sufficient and appropriate to provide a basis for its opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or overriding internal control;

- · obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of internal control;
- assesses the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management in the consolidated financial statements;
- assesses the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. This assessment is based on the audit evidence obtained up to the date of its audit report. However, future events or conditions may cause the Company to cease to continue as a going concern. If the Statutory Auditor concludes that a material uncertainty exists, there is a requirement to draw attention in the audit report to the related disclosures in the consolidated financial statements or, if such disclosures are not provided or inadequate, to issue a qualified or adverse audit opinion;
- assesses the overall presentation of the consolidated financial statements and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- obtains sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the scope of consolidation to express an opinion on the consolidated financial statements. The Statutory Auditor is responsible for the direction, supervision and performance of the audit of the consolidated financial statements and for the opinion expressed on these financial statements,

### Report to the Audit Committee

We submit a report to the Audit Committee, which includes in particular a description of the scope of the audit and the audit program implemented, as well as the results of our audit. We also report any significant deficiencies in internal control regarding the accounting and financial reporting procedures that we have identified.

Our report to the Audit Committee includes the risks of material misstatement that, in our professional judgment, were of most significance in the audit of the consolidated financial statements for the fiscal year and which are therefore the key audit matters that we are required to describe in this report.

We also provide the Audit Committee with the declaration provided for in Article 6 of Regulation (EU) No. 537/2014, confirming our independence within the meaning of the rules applicable in France such as they are set out in particular by Articles L. 822-10 to L. 822-14 of the French Commercial Code (Code de commerce) and in the French Code of Ethics (Code de déontologie) for Statutory Auditors. We discuss any risks that may reasonably be thought to bear on our independence, and the related safeguards, with the Audit Committee.
